ARTIST STATEMENT

WATER, WATER...

This is where we live,
This is why we live,
The power and the beauty
of the water that surrounds us,
And falls from the sky,
Is the essence of our existence.

It makes us, who we are,
And what we do,
Destined from those before us,
Who raised us and taught us,
To cherish the water.

We must preserve our water heritage,
Which nourishes our lives,
Our livelihood,
And our souls.
